MEMORANDUM FOR: DIRECTOR, CENTRAL INTELLIGENCE

THROUGH : [redacted] G

SUBJECT H : [redacted] - Debriefing of [redacted] F

I 1. The [redacted] of [redacted] D/F and [redacted] D/F from [redacted] F
F [redacted] appears to offer the best opportunity for observing techniques
F employed by the [redacted] Communists in brainwashing. This matter has
H been discussed by Dr. [redacted] with the [redacted] people in [redacted] I
They are most anxious to observe the subjects at the earliest opportunity.

2. CIA has arranged that each individual will be unwittingly escorted
I on the [redacted] trip to the [redacted] Detailed instructions have been
H issued for observation which the [redacted] group is most anxious to
obtain. This surveillance will be passive and should afford a good basis
for further detailed interrogation should the subjects prove co-operative.

3. It is to be expected that every Government Agency having interest in this subject will endeavor to interrogate these subjects upon their arrival in the United States. It is felt that such a procedure would only cause confusion. It is therefore recommended that -

a. CIA be designated as the Agency responsible for interrogation of subjects in connection with suspected enemy techniques;

b. A joint working group of [redacted] Agencies be formed J
to co-ordinate and support this effort; and

H c. [redacted] being probably the most competent group for this effort in the U. S., be designated as the element to perform this activity.
